

Reynolds Creek Campground

This campground is located at a cool 5200' elevation. There are vault toilets, tables, grills and fire rings. The water system however is broken and you will need to bring your own.

Lots of hiking trails and off road trails abound. For further information on the area please contact the Pleasant Valley Ranger office at (928) 462-4300.

Take US60 West toward Globe/Miami, take State Highway 188 northwest for approximately 15 miles to its junction with State Highway 288. Turn right onto Highway 288 and drive north for approximately 27 miles. (most of which is a rough and winding mountainous road) The Reynolds Creek Group Site will be on the left.
